RE: Information Services International-Dentsu (ISID) and Sunway E-Systems (SES) Announce Joint Partnership

Information Services International-Dentsu (ISID) (www.isid.co.jp) is pleased to announce its joint partnership with Sunway E-Systems (SES) (www.sunway.com.my/ses) to support all ISID's customers who are using Siemens PLM Software and other Engineering Solutions in South East Asia with immediate effect.

ISID has chosen to work with SES as SES has direct operational presence in Singapore, Malaysia and Thailand, with established channel partners across the region providing advanced and innovative PLM solutions to our customers. SES is able to provide full support system to all end users as well as potential clients with local helpdesk, on-site services and account management control system in the South East Asia region. SES's Sales personnel and Engineers have many years of in-depth industry expertise with Siemens and various other PLM solutions. SES has extensive project experience, proven track record and successes in PLM implementations with more than 500 PLM customers in the South East Asia region. This partnership will definitely benefit all ISID's customers in the region.
