

ENT SCREENING

SunMed Specialist and Wellness Centre, Damansara Heights is pleased to announce the introduction of the ENT Screening package as an add-on item to your Health Screening.

This screening is an in-depth, yet time and cost saving process to assess the function of the ear, nose and throat areas. In today's busy schedule, this has become an ideal way to keep you informed of any abnormalities that may arise out of these areas.

With the incidence of nasopharyngeal cancer (cancer at the back of the nose) being the second most common cancer in men and third in ladies, an ENT screening is recommended as part of your health screening.

In today's world of frequent air travel, good functioning of middle ear has taken importance. Assessment has become essential to avoid middle ear infection and this can be carried out via this ENT screening.

The ENT Screening Package is an add-on to your selection of the Gold, Gold Plus or Platinum package. You will be seen by our Consultant ENT Surgeon who will carry out the following :

- Video Otoscopy
- Diagnostic Nasal Endoscopy
- Video Laryno-pharyngoscopy
- Neck examination

The ENT screening package is offered at an attractive and affordable price of RM190.00
