WONDERLAND SYDNEY – A COMPLETE PACKAGE

The Sunway Group which owns and operates Sunway Lagoon, the premier theme park in Malaysia, is also the owner of one of Australia's largest theme parks - Wonderland Sydney with the Australian Wildlife Park.

Acquired by the Sunway Group and Worldwide Holdings in March 1997, the move is very much in tandem with the Sunway Group's vision towards globalisation.

Located at Eastern Creek, Wonderland is only a 45-minute drive from the city and a short drive to the Blue Mountains, a major tourist attraction in New South Wales. For guests' convenience, Wonderland Sydney also now offers a direct luxury coach service with pick-ups twice daily from the city. Since opening its gates to the public in December 1985, Wonderland Sydney has entertained over 15 million people.

Wonderland Sydney offers its guests a complete entertainment experience with all the attractions of major parks in one location for just one ticket.

Open 7 days a week, Wonderland Sydney with the Australian Wildlife Park features:

- A wildlife park which amongst other things allows guests to pat a koala, hand feed kangaroos and meet 'Maniac' the 4.5 metre crocodile.
- 10 free shows daily with general admission including world exclusives: Millennium Magic illusion and dance spectacular and Action Man Lives! the live action adventure.
- A man made 'Beach' complete with speed slides and aqua tubes.
- Flagship rides like the Demon rollercoaster, the Space Probe a free-fall from a 22-storey building and the Bush Beast, the largest wooden rollercoaster in the Southern Hemisphere.
- Not to be missed is the 'Outback Wooshed Show' where you will see sheep shearing, whip cracking and sheep mustering.
- Enjoy an 'Australiana' experience without leaving Sydney at the 'Out the Back' show. Meet real Australian bushmen when you learn how to throw a boomerang, watch sheep mustering and make billy tea and damper.

For more information on Wonderland Sydney with The Australian Wildlife Park visit its website at www.wonderland.com.au.
