Feel tired, stressed out and run down? Do you find you have to drag yourself up each morning and your energy's all spent before the day ends? Maybe it's time for a long overdue medical check-up but you would rather go on a relaxing holiday instead.

Why not do both, with the special "Return to Vitality" health package organised by Sunway Medical Centre and Sunway Lagoon Resort Hotel.

This health package has been introduced in line with the Selangor Government's move to promote medical tourism in the State which currently boasts an established network of quality private hospitals staffed by eminent professionals.

At only RM588 nett per person (twin share), one can enjoy a night's accommodation in a Deluxe Room at Sunway Lagoon Resort Hotel complete with a welcome drink and buffet dinner at the Sun & Surf Café Restaurant.

The following morning, drop in at the nearby Sunway Medical Centre for a general medical check-up and screening by the Resident Medical Officer. Just remember that you have to fast for eight hours before the medical check-up.

You'll get the results of your health screening the same day. Any medication or services required apart from the stipulated items in the Health Screening Programme is subject to charges.

Sunway Medical Centre which was officially opened by YAB Datuk Seri Abdullah Haji Ahmad Badawi, is equipped with 120 in-patient beds (240 when fully operational) as well as 45 specialist suites. Patients have access to a wide range of services, facilities and medical technologies for out-patient, in-patient, health promotion, 24-hour emergency services and specialty care in the major medical disciplines of obstetrics, gynecology, pediatrics, medicine and surgery.

The health package is valid until 31 December 2001 and confirmation of reservation is subject to room availability. A single supplement costs RM175 while the supplement for spouse or accompanying person (without check-up) is RM238. An additional night's stay for room only is offered at RM350 nett per room.
