

Improving The Lives We Touch

Healthcare

SunCity ventured into the healthcare industry through Sunway Medical Centre in November 1999. Although a new entrant in the industry, the hospital has made steady progress towards becoming a significant player with its team of reputable and experienced Specialist Doctors, hospital facilities and technology. In view of this encouraging performance, SunCity is planning to expand the hospital's capacity.

Sunway Medical Centre celebrated its 6th birthday on 15 November 2005, having grown in capacity from 60 to 195 inpatient beds by the end of 2005. Despite being in an increasingly competitive arena, Sunway Medical Centre is starting to be recognised as one of the key hospitals within the tertiary healthcare provider sector.

“Sunway Medical Centre – Providing the healthcare component for the fully-integrated township of Bandar Sunway. It is an opportunity for us to make a difference in the lives of the community. Sunway Medical Centre is dedicated to improving the lives we touch”.

*Dr Chong Su-Lin
Chief Executive Officer
Sunway Medical Centre*

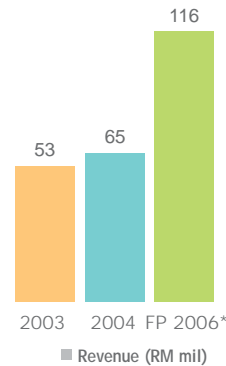

Full service, acute tertiary medical services: from diagnosis through to therapeutic.

Sunway Medical Centre's service extends from acute care to care in the home through its subsidiary company, SunMed@Home.

Providing professional and innovative quality services with safe and modern facilities to achieve continuous human capital development.

*18 months ended 30 June 2006

2006 Milestone:

- Sunway Medical Centre's Quality Management System was accredited by SGS International with ISO 9001:2000 in 2003. This was followed by a full 3-year certification by the Malaysian Society for Quality in Health (MSQH) in 2004.
- Sunway Medical Centre made national history in 2005 by being the first Medical Laboratory in Malaysia to be accredited the ISO 15189.
- Year 2005 also saw achievements in the Malaysian Society for Occupational Safety and Health through receiving the silver award for the service sector. Sunway Medical Centre received the Runner-up award for the Knowledge Management Portal submission under the Internal Service Projects category from Hospital Management Asia.
- Having achieved recognition as being one of the key hospital within the tertiary healthcare provider sector, staff strength now numbers at 120 Consultant Specialist Doctors and 650 employees.

Future Plans:

- Sunway Medical Centre will continue building on its existing strengths in Neurology, Neurosurgery and Neuro-Radiology by developing expertise in other niche areas such as Rehabilitation Medicine, Speech & Hearing, Dental Services, Digestive Health Centre, Travel Medicine as well as Mum & Baby Services.
- Expansion works have commenced in the second half of 2006, and by end 2008, Sunway Medical Centre will have total capacity of 350 inpatient beds, 90 Specialist Outpatient Clinic Suites, 9 Operating Theatres and 31 Critical Care beds. Key service departments such as Pharmacy, Radiology, Medical Laboratory and Rehabilitation will be expanded to allow for additional medical technology and services.
