3 SCOPE..... 3

4 POLICY STATEMENT 3

5 IMPLEMENTATION 4

1 INTRODUCTION

- 1.1 The production of goods for consumption play a large role in driving pollution. Water, waste and air pollution are common types of pollution caused by such activities.
- 1.2 Sunway Berhad (“the Company”) endeavors to responsibly manage the impact of our activities to minimize pollution, and thereby, reduce our negative impact on the environment.

2 PURPOSE

- 2.1 Sunway Berhad (the “Company”) is aware of the negative environmental impacts in the form of pollution which can be caused by business operations. Hence, we ensure these impacts are mitigated through pollution management in all our operations.

3 SCOPE

- 3.1 Sunway’s Pollution Policy (the “Policy”) applies at the Group level, and maybe adopted by companies dependent thereon. Companies in which the Group has an interest but do not form a part thereof, the Company will promote, through its representatives on the boards of directors thereof, the alignment of their own policies with those of the Company, such that they adhere to commitments that are consistent with those established in this Policy.

4 POLICY STATEMENT

- 4.1 The Company commits to:
 - a) Reducing effluents and hazardous waste pollution while ensuring proper handling of any such materials.
 - b) Regularly monitoring our emissions to ensure compliance with the relevant laws and regulations.
 - c) Proper waste management to prevent waste pollution.
 - d) Ensuring compliance for meeting water quality standards.
 - e) Co-operating with relevant stakeholders in the promotion and implementation of good pollution management practices.

5 IMPLEMENTATION

5.1 For new businesses:

- a) The Company will undertake ESG due diligence checklists and environmental-social risk maps for each business to assess the ESG impact of each new project.

5.2 For existing businesses:

- a) Manage environmental and social risks based on the international environment management standard ISO14001.
- b) Recommend that our subsidiaries establish their own environmental management systems based on ISO14001 or other international guidelines.
